EQUIP GmbH is an **Austrian IT service provider** that has been supporting and implementing well-known small to large IT projects since 2002. To strenghten the development team at our end client we are looking for up to 4 new team members as:

Full Stack Web Developer (m/f/d)

In this position you will work closely in a young and dynamic team with different levels of experience. We are looking for reliable, responsible and team-oriented personalities who are enthusiastic about solving technical problems.

Your Tasks

- Conception and development of web solutions based on PHP/Laravel

- Keep your eyes and ears open in order to be technically up to date and react to trends quickly

- Go-to-Guy for technical questions from internal and external stakeholders

Your Skills

- Approx. 2 years professional experience in PHP development

- Good knowledge of PHP 7, Laravel or Symfony and ideally jQuery, NodeJS and MySQL/SQL

- Beneficially experience with Angular and Mac OS

- Fluent German **or** English skills (at least B2)

- Experience with or interest in test-driven development

Key Facts

- Full time
- Permanent position
- Vienna
- from € 2.800 gross / month (depending on qualification and experience, 14x/year)

Benefits

- Self-determined work
- Modern tools, hardware and projects
- Scope for your ideas in friendly and young teams
- Flexible working hours
